

learned the hard way by executives, work-tested discoveries by industrial psychologists and management consultants.

THE MANAGEMENT PROBLEMS OF DIVERSIFICATION. By Stanley S. Miller. *John Wiley & Sons*. \$4.50.—Outlines the problems the manager of a mature production-oriented firm must expect to face as the result of expansion into an unfamiliar field, and the difficulties that arise in using existing resources, acquiring new resources, and adapting management experience.

EXECUTIVE READINGS IN MANAGEMENT SCIENCE. Edited by Martin K. Starr. *MacMillan*. \$7.95.—A comprehensive collection of papers which have appeared in the *Journal of Management Science*.

MATHEMATICAL STUDIES IN MANAGEMENT SCIENCE. Edited by Arthur Veinott, Jr. *MacMillan*. \$7.59.—Papers of original research for mathematically oriented specialists in the management sciences.

FILING AND RECORDS MANAGEMENT. By Bertha M. Weeks. *Ronald Press*. \$6.50.—This third edition spells out tested procedures that help management improve filing efficiency in offices of every type and size. Shows how to improve accuracy, speed and economy.

BUSINESS LOGISTICS. By Heskett, Ivie, and Glaskowsky. *Ronald Press*. \$9.00.—This detailed study points up managerial methods essential to profitable supply and distribution; shows how business logistics are integrated with the firm's other activities.
